

Application Serial No.: 09/682,609

Attorney Docket No.: 59589.000015
Client Reference: 51SS-7212

IN THE CLAIMS:

Please cancel claims 3, 4, 17, 22 and 23 without prejudice or disclaimer to the subject matter set forth therein.

Please amend the claims as set forth below. The claims are in "clean form" per 37 C.F.R. § 1.121. Applicant has also included the Appendix in accordance with 37 C.F.R. § 1.121, showing the additions and deletions, which are indicated by strikethrough, to the amended claims.

Claims 1, 5, 16, 20 and 24 have been rewritten as follows:

1. (Once amended) A mobile power generation system, comprising:

a main trailer having

an engine, wherein the engine is a gas turbine; and

an electric generator turned by the engine;

an air filtration trailer having

air filtration equipment for filtering air used as inlet air to the engine;

an exhaust trailer having

a part of an exhaust silencing system for reducing engine output noise;

and

an auxiliary trailer having

auxiliary equipment for use during operation of the engine.

5. (Once amended) The system of claim 1, wherein the main trailer further comprises

switchgear electrically connected to the electric generator.

16. (Once amended) A main trailer for use with a plurality of other trailers, the

main trailer being capable of connecting to the other trailers to form a power generation system, the main trailer comprising:

- a gas turbine;

- an electric generator turned by the gas turbine;

- a generator lineside cubicle; and

- switchgear,

- wherein the switchgear is hardwired to the generator lineside cubicle; and

- wherein the other trailers comprise:

 - an air filtration trailer having air filtration equipment for filtering air used as inlet air to the gas turbine;

 - an exhaust trailer having a part of an exhaust silencing system for reducing engine output noise; and

 - an auxiliary trailer having auxiliary equipment for use during operation of the engine.

20. (Once amended) A method of providing a mobile power generation system, comprising:

- providing a main trailer having

 - an engine, wherein the engine is a gas turbine, and

 - an electric generator turned by the engine;

- providing an air filtration trailer having

 - air filtration equipment for filtering air used as inlet air to the engine;

- providing an exhaust trailer having

 - a part of an exhaust silencing system for reducing engine output noise;
